# XTOOL

## The Ultimate Laser Engraver Solution Dedicated to Education

### xTool P2S

# 55W

- 55W powerful CO2 laser
- AutoPassthrough™ Technology
- Dual 16MP cameras
- Curved surface engraving
- 26x14 inch bed size
- Enclosed design with automatic lock

## xTool P2S Specifications

### Bed Size

26.7"×14.1"(680×360mm)

### Working Space

23.6"×12" (600×305mm)

### Laser Power

55W CO<sub>2</sub> Laser

### Product Size

39.4"×25.1"×10.6" (1000×639×268mm)

### Product Weight

45kg

### Max. Working Speed

600mm/s (X-Axis Acceleration 6400mm/s<sup>2</sup>)

### Max. Workpiece Height

With tray 2.5"(64mm), Without tray  
2.7"(71mm), With riser base 8.5"(215mm)

### Rotary Engraving Diameter

With riser base 0-180mm, Without riser base  
3-50mm

### Z-Axis Movement

3"(75mm)

### Operating Ambient Temperature

10-30°C (10-86°F) \*If the temperature drops  
below 10°C (50°F), please add antifreeze  
under the guidance in the user manual.

### Storage Temperature

10-45°C (50-113°F)

### Air Assist

200 kPa (Dual Cylinders)

### Exhaust Fan

233.3 CFM (14,000 RPM Dual Blades)

### Optical Path Indicator

Included

### Daily Maintenance

Quick-Release Fan Button, Magnetic Filter  
Screen, Mistake-Proof Laser Mirror

### Water-Cooling System

Capacity: 1.4L(0.37gal)

### Ranging System

LiDAR Ranging System (Processing Precision:  
0.01mm)

### Camera Type

Panoramic Camera + Close-Range Camera

### Number of Pixels (Effective)

16MP×2

### Vision Precision

0.3mm

### Image Resolution

1000 DPI

### Focus Mode

Autofocus

### Software

xTool Creative Space / Lightburn

### Connection

WiFi & USB

### Support File

SVG / DXF / JPG / JPEG / PNG / BMP, etc.

### Support Systems

Android / iOS / iPad / Windows / macOS
